DETAILED ACTION

Response to Applicant's Amendment

1. The examiner withdraws all rejections to all claims.
2. The examiner notes that the "option key" that sets the states of the multimode keyboard/keypad is read to be defined per applicant's Fig. 4, with the 'option key' scrolling through the three states of the keyboard.

Allowable Subject Matter

3. **Claims 25-50,59,82-107,112-128** are allowed over the prior art of record
4. The following is an examiner's statement of reasons for allowance:

In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art first to provide a specific 'option key' that functions as per applicant's Fig. 4, along with the specific configuration of device components (case, display, speaker, keyboard and keys) in the prior art handheld devices disclosed by Motorola (V100 and Accompli devices).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
